Nova 96.9 Finally Reveals Fitzy & Wippa as The New Breakfast Show.... Radio's Worst Kept Secret?

Nova's Fitzy & Wippa are the new hosts of Nova 969's Breakfast Show

Fitzy & Wippa are a couple of Aussie blokes (some might say 'bogan') that have injected fun and chaos into Australian radio with their on air antics. Their 'Bob Katter-pult' broke a World Record for the Furthest Distance Travelled by a Catapulted Car, a faux Tasmanian radio show 'Renegade and the Bunyip' has seen the duo get the better of Matt Preston, Karl Stefanovic and 'Packed to the Rafters' star George Houvardas, and their work place pranks, serenades and send ups have had listeners in stitches.

Fitzy & Wippa have also been nominated for an Australian Commercial Radio Award (ACRA) for 'Best On Air Team' six months into their partnership.

Paul Jackson, dmg Radio Australia Group Program Director, said, "Fitzy & Wippa are a class act. Their talent, chemistry and sense of humor are second to none. They'll inject some fun and down to earth personality into Sydney breakfast radio like they did in Drive."

"We're pumped and have decided to celebrate with Labor MP Craig Thompson & his credit card" Fitzy & Wippa said of the move.

Fitzy & Wippa will still be heard around the country from 6-7pm across the Nova Network.

Replacing Fitzy & Wippa in the national drive timeslot from 4-6pm will be Meshel, Tim & Marty, formerly Nova 106.9 Brisbane's breakfast team.

Paul Jackson said, "Meshel, Tim & Marty are strong broadcasters in their own right and a formidable on air team. We're really excited that Australia now has the opportunity to hear them nationally on the Nova Network."
